

Technical Data Sheet

Description:

Polishing Cream is a new polishing sol, specially for polishing solid surfaces quickly and easily, just using a single disc machine or a grinding-honing machine. It is possible to use it on smoothed materials, starting from grit 400 and above, or in an alternative to polish powers. It is a sol product, in main use designed to polish new solid surfaces, or to restore polish the surfaces that lost shine and color.

Characteristics & Properties:

Characteristics as follows:

- Neutral type - Non acidic & Water-based.
- Excellent in polishing counter top.
- Vertical use is available.
- Safe & Eco-friendly: No harm to foods and human body.
- Convenient to use.
- Cream type.
- Ready to use. - Water-based viscous suspensions.

Technical data:

- Appearance: sol
- Color: white
- Odor: cucumbers scent
- Coverage: approx. 30~60m²/ml
- Density: approx. 1.27 g/cm³
- pH: 6~7

Field of Use:

Acrylic and Polyester based solid surface stones.

Natural stones : marble, granite etc.

Vertical wall, small area, table top, edge etc.

Method of Use:

1. Area should be pre-grinded and free of any scratches.
2. Clean the surface and dry.
3. Shake well before use.
4. Apply 20~40g/m² polishing cream on the surface.

- Polish the surface with hand polisher which is attached with wool-felt pad.
- Remove residues and rinse thoroughly.

Storage:

Storage temperature: Between 5°C and 30°C

Must be applied to material at temperature between 5°C and 30°C

Shelf life: 1 year approx. in original packing, if stored in a cool place free from frost.

Environmental Protection:

Disposal: product residues are classified as special waste.

Containers are made of environmentally friendly polyethylene (PE).

Clean containers can be recycled through collection system.

Safety:

Keep out of the reach of children.

Avoid contact with skin and eyes. Do not inhale. Wear suitable protective clothing, gloves and eye/face protection.

If swallowed, seek medical advice immediately and show this container or label.

First Aid Procedures: remove contaminated soaked clothing immediately. In case of inhalation, take in fresh air. In case of contact with skin wash off immediately with soap and water. In case of contact with eyes rinse thoroughly with plenty of water and seek medical advice. In case of ingestion, do not induce vomiting. If swallowed by mistake drink plenty of water and seek medical treatment.

Emergency Procedures: in case of spill or other release, take up mechanically. Ensure adequate ventilation. Use personal protective clothing. In case of fire formation of dangerous gases possible.

Suitable extinguishing material: foam, dry powder, carbon dioxide, sand.

Additional Information is listed on the Material Safety Data Sheet.

Packing:

12 bottles of 450ml, 12 bottles of 950ml

The composition of the tins is Steel (ACC). After use, comply with the local and national regulations currently in force regarding recycling.

Our packing is conformed as per U.N. rules for inland transport (A.D.R.) and by sea (I.M.O.) for transportation via air refer to updated rules (I.A.T.A.). For further information regarding transport please check MSDS.
